EXPERIENCE

Ovi Edu – Product Designer (*Internship*)

June 2025 – August 2025

- Spearheaded initial branding and design, developing the company's visual identity and achieving 80% brand recognition within the target demographic in the first month.

Revault –Developer (*Internship*)

January 2025 – May 2025

- Revamped outdated interfaces into responsive layouts across multiple client websites, enhancing cross-device accessibility.

TIC Global Services – UI/UX Designer (*Internship*)

August 2024 – December 2024

- Collaborated on reusable prototyping templates used across 5+ designers, improving handoff and reducing coordination gaps.

PROJECTS

Neo pat – Placement Management App– Research / Case Study / Visual Design

January 2026 – Present

<https://tinyurl.com/4epfssvu>

- Produced wireframes and high-fidelity Figma prototypes following design-system and accessibility standards, lowering user errors by 25%

AI Bug Tracker – Frontend Development

August 2025 – February 2026

<https://ai-bug-tracker-4s1n.vercel.app/>

- Engineered and deployed a React-based client interface for an AI-powered bug tracking platform supporting structured issue logging.

QR Based Attendance Monitoring System – AI/Attendance Management System

March 2025 – June 2025

<https://qr-attendance-ten.vercel.app/>

- Implemented and hosted an attendance solution enabling rapid check-in through AI-assisted verification.
- Designed interaction flow to minimize manual input and improve recording accuracy.

CERTIFICATIONS
